

VACUUM PUMPS AND SPARES

We have three vacuum pumps and leak detector, a vacuum pump TSH 260 D and HLT 260 leak detector are on the stock detectors inside the lab detectors.

A vacuum pump TSH 260 D, is in the INT telescope balcony next to the instrument INTWFC

A vacuum pump TSU 071, is in the WHT telescope balcony dome store.

The parts of the vacuum are in blue cabinet and plastic box marked "VACUUM SPARES", "VACUUM FITTINGS" on the stock detectors inside the lab detectors.
