

## The Isaac Newton Group of Telescopes

The Isaac Newton Group of Telescopes (ING) consists of the 4.2m William Herschel Telescope (WHT), the 2.5m Isaac Newton Telescope (INT) and the 1.0m Jacobus Kapteyn Telescope (JKT), and is located 2350m above sea level at the Roque de Los Muchachos Observatory on the island of La Palma, Canary Islands, Spain. The WHT is the largest telescope of its kind in Western Europe.

The construction of the ING telescopes was the result of a collaboration between the United Kingdom and the Netherlands. The site is provided by Spain, and in return Spanish astronomers receive 20 per cent of the observing time on the telescopes. The operation of the site is overseen by an International Scientific Committee, or Comité Científico Internacional (CCI).

A further 75 per cent of the observing time is shared by the United Kingdom, the Netherlands and the Instituto de Astrofísica de Canarias (IAC). The remaining 5 per cent is reserved for large scientific projects to promote international collaboration between institutions of the CCI member countries.

The ING operates the telescopes on behalf of the Particle Physics and Astronomy Research Council (PPARC) of the United Kingdom, the Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO) of the Netherlands and the IAC in Spain. The Roque de Los Muchachos Observatory, which is the principal European Northern hemisphere observatory, is operated by the IAC.

In this issue of the Newsletter you will find a fine cross section of science results obtained from the telescopes. But let me point you also to the contributions by S. Hameed that so nicely captures the excitement of conducting astronomical observations, and the one by N. Douglas on a very special public outreach activity.

I end this introduction with two sad notes: Our friend and colleague, Charles Benneker, passed away in October last year. Charles had worked at the observatory for over a decade, specialising on electronics systems and instrument

control systems. Charles will be dearly missed and not be forgotten by his friends and colleagues. A commemorative plaque will be located on the WHT.

We were equally shocked to hear that Emiliós Harlaftis died as the result of a tragic accident. Emiliós had spent several years working at the observatory as support astronomer. After moving back to the UK, and later to his home country, Greece, he always kept close scientific and personal ties with the observatory on La Palma. He will be remembered for his contribution to science and his unconditional enthusiasm for astronomy and the observatory.

René G. M. Rutten

### The ING Board

The ING Board oversees the operation, maintenance and development of the Isaac Newton Group of Telescopes, and fosters collaboration between the international partners. It approves annual budgets and determines the arrangements for the allocation of observing time on the telescopes. ING Board members are:

Prof J. Drew, *Chairperson* – ICL  
 Prof T. van der Hulst, *Vice Chairperson* – University of Groningen  
 Dr G. Dalton – University of Oxford  
 Dr R. García López – IAC  
 Dr P. Crowther – University of Sheffield  
 Dr R. Stark – NWO  
 Dr C. Vincent – PPARC  
 Dr S. Berry, *Secretary* – PPARC

### The ING Director's Advisory Group

The Director's Advisory Group (DAG) assists the observatory in defining the strategic direction for operation and development of the telescopes. It also provides an international perspective and acts as an independent contact point for the community to present its ideas. DAG members are:

Dr M. McCaughrean, *Chairperson* – Astrophysikalisches Institut Potsdam  
 Dr M. Balcells – IAC  
 Dr P. A. James – Liverpool John Moores Univ.  
 Dr N. Tanvir – Univ. of Hertfordshire  
 Dr E. Tolstoy – Univ. of Groningen

The ING Newsletter is primarily published on-line at <http://www.ing.iac.es/PR/newsletter/> in HTML and PDF format. Notification of every new issue is given by e-mail using the [INGNEWS] mailing list. More information on [INGNEWS] can be found on page 32. Requests for one-off printed copies can be emailed to Javier Méndez ([jma@ing.iac.es](mailto:jma@ing.iac.es)).

The ING Newsletter is published twice a year in March and September. If you wish to submit a contribution, please contact Javier Méndez ([jma@ing.iac.es](mailto:jma@ing.iac.es)). Submission deadlines are 15 July and 15 January.
