

OASIS spares list

Filters & Holders, box with blue covert – Fragile!
several holders and filters

PCB PM422 (MSE422 Issue:A Dwg:1351
4 axis mod. step. drive

Camera: Jack & LVDT, small electronic parts

- wedges potentiometer (3 turn) & DC/DC converter
- linear var. diff. transformer (LVDT)
- 3 inductive sensors
- 1 64 pin connector
- 1 connector plate
- encoder C3A27
- 6 'opto22' relays
- 2 omron relays
- jack
- 15 different circuits

2 Plexiglas covers

Power Supplies

- coutant HSC24-2.4
- coutant HTC1

Focus slide long, ESP

Electronic Boards

- MIDI MI452
- Pro-Log 32 channel opto input card
- PMI 1959 LVDT
- E489A1
- Pro-Log 5376
- Pro-Log TTL I/O card
- adapt B
- Oasis Relais/1

Multi-Diaphragms for optical tests of OASIS

OASIS Flat-Cables

- box with many cables incl. 2 3.5" disks DOS 6.20

Loose spare cables for OASIS

Mechanical parts

- 2 spare shutters
- 2 'escap' motor PH632.508.002.01
- 3 lock drives and reducers
- several bearings, springs, screws, o-rings
- base mount pins and nuts
- wedges motor
- empty filter covers
